

OUR ROOTS

International Children's Fund (ICF) is a 501(c) 3 non-profit organization that provides humanitarian aid to desperately poor children and their families throughout the world.

ICF has grown from one man's mission to help starving children to an organization that spans the globe. For more than 40 years, ICF has partnered with a network of highly dedicated indigenous pastors who serve as our eyes and caring hands within the local communities. These pastors identify the greatest needs within their villages, then work closely with ICF to request, receive, process and distribute our life-saving aid.

HIGHEST RATING

We are pleased to report ICF continues to receive the highest ratings from the following trusted charity-review organizations:

ICF LEADERSHIP

Officers and Board Members are as follows:

- Dr. David Bruenning – Founder/Int'l Director
- Dr. Scott Schinschke – Chairman of the Board
- Larry Oettel – Vice President
- Carol Grady – Treasurer
- Jean Hoppe – Secretary
- Roger Smith – Director

EVERY CHILD MATTERS

INTERNATIONAL CHILDREN'S FUND

ANNUAL REPORT—2019

INTERNATIONAL

CHILDREN'S FUND

ANOTHER GREAT YEAR

During 2019, ICF supplied **more than \$56 million** in lifesaving food, clothing, medicine, and other services to thousands of needy children and their families. This aid was carefully delivered through eleven ministry partners in Liberia, Ghana, Kenya, Uganda, and India.

CLEAN WATER CHANGES LIVES

Polluted water isn't just dirty; it can be **deadly**. In 2019, ICF drilled ten new wells providing safe, clean drinking water to villages where this vital resource was not previously available. This freshwater means health, safety, and a better local economy for an estimated 30,000 villagers in some of the most impoverished areas of Africa.

HOPE FOR THE HUNGRY

Drought and violence have left millions of people in Africa in desperate need. In 2019, due to high shipping costs, we purchased more food locally rather than shipping from the US. Not only did we help the hungry, but this was a benefit to the local economy. During 2019, ICF provided 291,000 pounds of rice and 128 barrels of meat products to areas experiencing the greatest need.

Through our ministry partners, we are now providing more than 2 MILLION nutritious meals annually.

BETTER HEALTH AND HEALING

Medicine in Africa is in extremely short supply and too expensive for most of the people who desperately need it. During 2019, we provided almost a MILLION doses of medicines and vitamins to treat people suffering from illnesses ranging from malaria to AIDS.

Through our partners, we offered deworming and jigger eradication to thousands of vulnerable children. We also distributed 33,000 insecticide-treated mosquito nets to protect people from malaria.

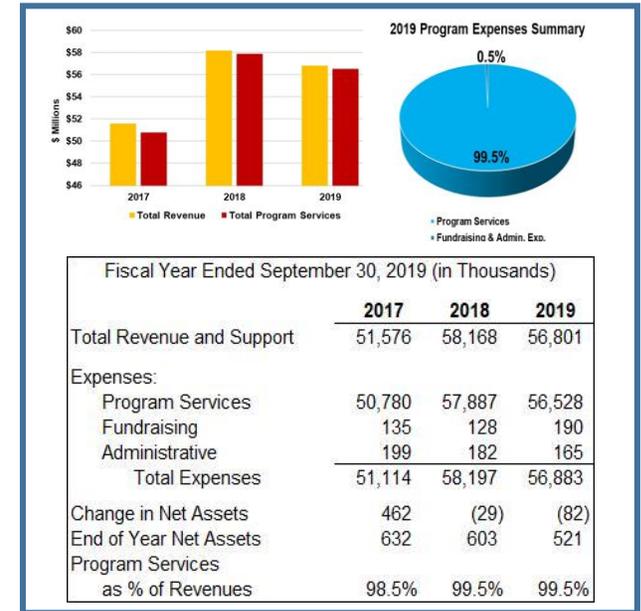

EDUCATION AND COMMERCE

Education and training are the keys to creating self-sufficiency and a better life. In 2019, ICF supported four orphanages, a day school, and a vocational training project. We also conducted ongoing feeding programs in two slums in West Africa. We provided 12,000 health education lessons to help people learn how to better care for themselves and their families.

FISCAL MANAGEMENT

ICF is committed to being good stewards of our talents and resources. We take our responsibility as a Christian charity very seriously and work diligently to identify the most efficient, cost-effective means of securing and delivering humanitarian aid to those in greatest need.

We are pleased to report that in 2019 more than 99% of our total expenses went to program services.
